Secure WIFI Connection

Smartphone remote view Ensure your child is safe no matter where you are

The Snuza Looksi App enables you to check up on your child no matter where you are with its remote viewing capabilities.

Two-way audio

Talk directly to your child from the App

Speaker mode in the Snuzza Looksi App enables you to speak directly to your baby and have them hear your voice when they need you the most.

The camera microphone can pick up sound to alert you via the app from up to 6 meters away.

Multiple users can be connected Always know your child is safe

Up to 6 users can be connected to the camera and be able to talk through the App or listen in. Usage rights depend if someone is added as a guest or given full admin rights which can be done in the App.

Secure WiFi Connection Designed with your child's security in mind

The Snuza Looksi Smart Camera streams live video through a secure WiFi connection to the Snuza Looksi App.

Infrared (IR) night vision

Infrared night vision (IR) enables you to see clearer images in the dark from up to 12 meters away.

Experience superior visibility with panoramic views

Using dual motors design, the camera is able to pan left to right 355° and tilt up and down 95°. You can control the angle freely from your smartphone by simply using your fingers.

1080P High Definition Clarity for your assurance

Using an all-glass optical lens, the image is clear with true colours displayed.

Resolution is 1920 x 1080
